Item 1 – Contract Modification

| | |
|--------------------------|--|
| Contract No.: 104 | Title: Payphone Services and Payphone Presubscription Services for Various County Locations |
|--------------------------|--|

Type of Change:

- ☒ Additional Time
 ☐ Authorization to use Charter County Transportation Surtax Funds as a Component of MDT Operating Funds
- ☒ Additional Revenue

Contract Description and Reason for Change:

On July 3, 2012, the Board approved a one-year extension to this agreement (Resolution R-578-12) to allow the County time to review and assess an unsolicited proposal received from Global Tel Link (GTL), which proposed incorporating the payphone system with a jail management system. In addition to the review performed by Miami-Dade Corrections and Rehabilitation, staff issued a Request for Information (RFI) to see if other vendors would be interested in providing a jail management system as part of the pay phone agreement. Besides GTL, three additional firms responded to the RFI advising that they would be interested in submitting such proposals. Subsequently, Miami-Dade Corrections and Rehabilitation, in coordination with the Information Technology Department, initiated work to prepare a Request for Proposals for the combined services. This item recommends a 12 month extension to allow additional time to complete this solicitation process. During this time, the contract is expected to generate an estimated \$2,150,000 (includes the additional five percent increase in revenues agreed to by FTL at the July 9, 2013 Finance Committee meeting) in payphone and payphone subscription services revenue. This revenue projection is based on recent history. Given the prevalence of cell phones since this contract was originally awarded in 2000, annual payphone revenues are substantially lower than the earlier years of this contract.

In addition, as part of this modification, the County has negotiated enhancements to the existing contract with GTL that will do the following:

- GTL will install a new inmate telephone platform, phones and features; and
- As part of the new system/platform GTL will add Voice Biometrics as a Fraud Preventative measure.
